You've had a Lakewood guitar for a long time and now you cannot find it within our guitar range? Maybe you are luckier here. . . This is a list of older guitar models that have been taken out of the series program. Most of them are still available via our customshop.
In this guitar meet woods from very different regions of our earth. Cedar from Canada, elm from Germany, koa from Hawaii, cedro from Bolivia and ebony from Cameroon. This melange has a high visual appeal and impresses with an open and dynamic sound. The instrument is finely tuned with the built-in L. R. Baggs Anthem system and Gotoh 510 tuners and is impatiently waiting for your very personal approach.
