You've had a Lakewood guitar for a long time and now you cannot find it within our guitar range? Maybe you are luckier here. . . This is a list of older guitar models that have been taken out of the series program. Most of them are still available via our customshop.
The D-32 has everything one would expect from a rich, powerful guitar with rosewood body and spruce top. Strong basses, sweet mids and good tops make this model an effective all-rounder, either as a flat picking canon or songwriting tool. As with all models in the deluxe series, the presentation is luxurious.
