*You've had a Lakewood guitar for a long time and now you cannot find it within our guitar range? Maybe you are luckier here. . . This is a list of older guitar models that have been taken out of the series program. Most of them are still available via our customshop.*

*Lower frequencies require adequate volume. Bass lines need clear definition. The compact 68 cm scale is comfortably playable. The L. R. Baggs "Anthem" System amplifies these naturally at requisite volumes.*
